- Matrix

Get your sail, mast, boom and base ...

... insert the mast!

The Gaastra silicon patch will help you!

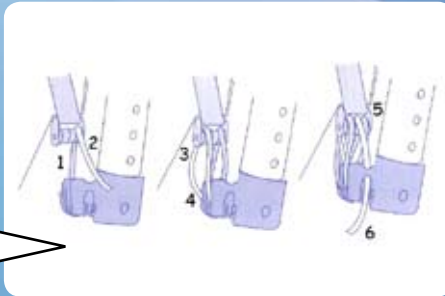

Put the mast all way up...

... check to see male head plug is in the female mast plug!!!

Check the sail specs and set up your base accordingly!

Thread your rope correctly!

Pull downhaul to about 25% tension!

Connect the boom in suitable position ...

... and lock it! Use shim on RDM masts!

Check the sail specs and set up your boom accordingly!

Set boom to length and pull outhaul rope to tension sail 100%

Set the luff to 100% too!

100%= Loose leach till 3rd batten from top!

Attach your start leash. Thats it. Have fun!
