

**The Tabou Team is really happy that Gaastra Teamrider Phil Horrocks joins the family.**

"I'm very happy to be riding on Tabou boards this coming season, I'd already had a couple of sessions on the water with them before I made the jump and i didn't need convincing! The Da Curve 74 has a really nice compact, radical feel to it, it just makes wave riding easier, I can decide where I want to go when and how fast?"

Joining the Gaastra & Tabou team has given me the opportunity to input my ideas into the upcoming Wind and SUP ranges, it'll be good to work with Fabien in producing the best possible windsurfing equipment! Having an array of talented riders around to motivate and inspire is something I'm really looking forward too as well.

My goals for this year are to compete on the UK and PWA world tour, but along side that, i just want to be spending as much time as I can sailing in the best conditions possible, on the best equipment possible!! so look out for me at a break near you! and come say hi!"

Cheers, Phil
